The Car Salon offers Calgary's premier detail service!

Car cleaning is our specialty it's how we started. Today truck detailing for commercial fleets are just as popular and we offer great package deals for fleets as well!

We offer convenience and a full range of car cleaning services. We're equipped to handle any automotive service, whether your looking for just an exterior detail, interior detail, engine bay steam clean or one of our high quality complete packages, our rates are affordable and results speak for themselves, at The Car Salon Group of Companies our goal is to make sure to do our best to make your detail experience a pleasure.

Our detail services are not limited to simply cleaning vehicles but more so we can restore and even completely sanitize, ceramic coating and paint protection as well.

We offer theft recovery, concrete/road paint removal, and virus cleaning and sanitization as part of our detailing services as well as paint protection and ceramic coating.

With the addition of having a detailing service along with our autobody shop we are able to do the complete restoration package for all circumstances whether it's a customer going through an accident or a theft recovery.

The theft repair package at The Car Salon is the simple solution to fix any vehicle that has been broken into. If Your Vehicle has come in contact with biohazardous materials or paraphernalia it is important that the vehicle is tested and decontaminated. At The Car Salon we test and remove any contamination present including the elimination of any illicit drugs, blood born pathogens, insect/rodent infestation or other materials considered hazardous. we've also partnered with DrivePur protective systems to add the addition of a anti bacterial sanitization treatment process. Drive Pur formula is a water based air/ surface sun activated treatment that is non-toxic and can last up 6 months!

Our detailing service is like no other creating a long-lasting service to all vehicles in the bay. We offer many detailing packages, power polishing, odor removal, fleet de-commissioning, rust check, undercoating, de-decating & more!

We offer fleet security solutions. This customized automotive service can ensure protection of your vehicle and your investments.

You can trust with our years of service and experience that The Car Salon is the best place to go for vehicle detailing, theft recovery, anti microbial sanitization services and ceramic coating.

The product knowledge on the different films and experience with the ever developing industry is what can separate us as one of the lead film installation and design companies in the city.

At The Car Salon we don't limit our services as we provide everything from fleet graphics to paint protection films. Our fleet package deal consists of discounted custom designs for your company fleet that have long lasting or short term no residue installations to suite what customers' requirements. We work with the best quality materials and consistently research the every developing industry. Coupled with correct design practices and quality materials you can go wrong with The Car Salon.

Paint protection is one of our most competitive in regards to the industry in today's standards. At The Car Salon we have done our research and teamed up with XPEL to provide one of the top paint protection films with the most precise and elaborate cutting software. This film stays clear of crumpling it up in a ball unlike other competitors' films that claim to be the best- just as a testament to the level of research and pride we put into our work.

Our facility is able to de-decal and replace all decals or body wraps. If you're working on a restoration or your vehicle got into an accident we can restore not just the body work required but also wrap or decals to bring it back to life. Bring your ideas to life with the Car Salon design team where we manifest digital rendering to reality.

Since 1994 Calgary's go to Films & Graphics source for the absolute highest quality in window tinting, paint protection film and vinyl wrap installations. Don't settle for companies that will render your logo and butcher your company image by printing out Atari, 8-bit quality finishes. Our design team can render your designs even if your design team can't. There are a lot of graphics companies that don't use proper practice and won't even send workable files! However this is not a problem for The Car Salon!

RESTYLING

The Car Salon film and graphics department has decades of experience in the industry with expert knowledge and practices to ensure the quality of our work. We use the latest and greatest in cutting software to always create precision kits for installation and our installers' have experience in all type of installations from working with different materials to different surfaces we have the skills and know-how to get the job done!

Our lead designer has decades of world-wide international experience in the field and when it comes to product knowledge our experts use the correct practices and have the skills to even hand cut surfaces with precision and without flaw. The type of work we do is unmatched to the competition that claims to have the best quality but cheap out to cut corners every which way. At The Car Salon you can trust we do the job right and guarantee the quality.

PAINT PROTECTION FILMS

We provide the most advanced paint protection films and the most accurate fitted designs in the industry. Choose us to protect your vehicle's paint!

One Solution... One Location...

Recent days have contributed to a renewed involvement in many truck accessories and services we provide to local Calgarians.

The Car Salon in Calgary is the “One Best Place” for all your car and truck accessorizing needs.

Truck Accessories in Calgary isn’t just our business, it’s our passion. When it comes to finding the right place for auto accessories near me, you’ve found it. Your search is over.

We offer a wide variety of accessories from after market lights to stereos to full security systems. We have access to a conacopious list of manufacturers to provide all our customers’ vehicles’ accessory needs. We carry the top industry brands such as ODX, Focal, Viper Remote Starts and so much more.

If a client had after market head lights we can replace them if damaged- a likely case in today’s world. With so many aftermarket modifications and upgrades becoming a norm in today’s car society it is important that we are able to not only provide but service the car communities. Vehicle theft and break-ins have increased in the last few years here in Calgary and surround areas. We responded to this call. At the Car Salon, we are able to equip your vehicle with our Security Solutions.

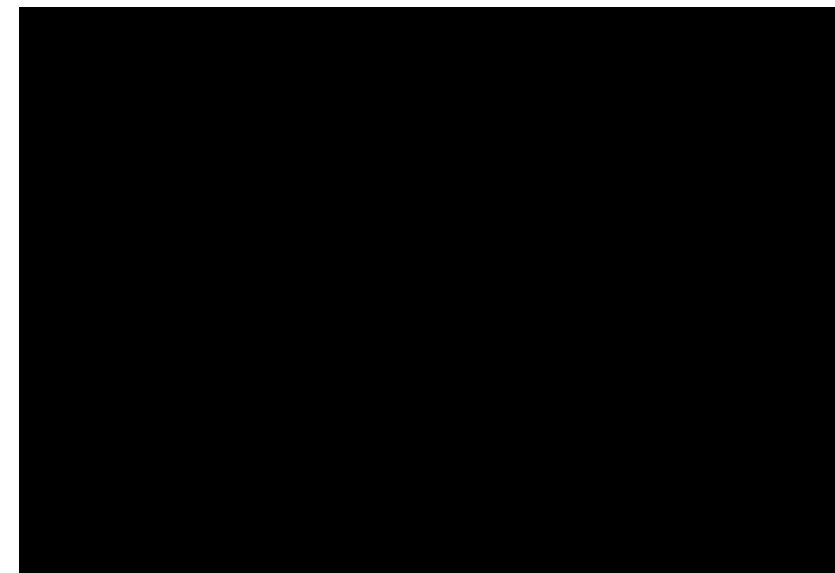

For Everything Automotive

Getting clear functional LED flood lighting on the side and back of the truck is going to help a lot. There might be circumstances when, instead of bugging out, the customer may like to lend a helping hand to a neighbor or your community, whether it’s after a terrible storm or the much-needed reconstruction and assistance after a disaster.

Because many of these accidents will trigger blackouts, having overnight work lighting on the side and back of the cab can transform the truck into a workstation.

When you are outdoors and are setting up camp or at your bug out location, these lights give you the chance to have all-around visibility to ensure the area is clear, and to allow you to see your surrounding area to set up camp at night. A couple of good options for work lights on your truck are Rigid Industries or ODX Lighting.

From lights to car audio. From outfitting a work vehicle to or going off grid for a few days we have all the accessories one needs.

Fender Flares

Trucks already have quite an imposing look, however, if you want your truck to really make an impression then how about adding a thick fender flare to give the body a little bit more muscle. Fender flares fit directly above your wheel well and although they may only serve an aesthetic purpose they’re quite popular in North America especially on smaller trucks. If you’ve ever been off-road you’ll also quickly realize that a fender flare can help keep your darling truck nice and clean and you dash up and down the trails.

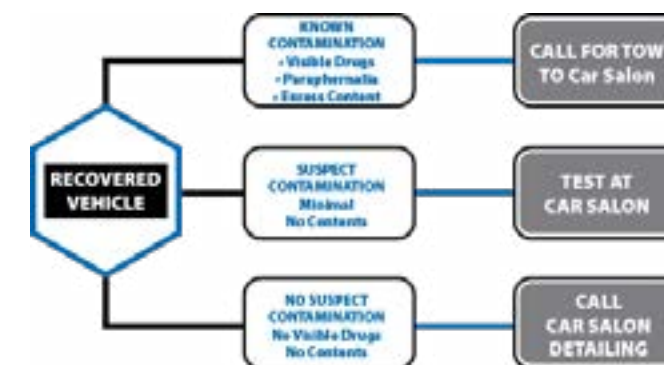

Car Theft is on the rise in Calgary & a large number of them are large amount of cars contaminated with Methamphetamine & Fentanyl.

The Car Salon has years of experience with bio-cleaning vehicles, having dealt with all manner of vehicles, shapes, and sizes like cars, SUVs, vans, buses, trailers and more. You can count on us to provide immediate assistance in times of emergency by sanitizing or restoring your vehicle to pre-theft conditions.

Drug use and misuse is a regrettable fact of life. In public places, such as alleyways and children's parks, we often see signs of drug use. The sight of used needles and other drug-related hazards can be alarming, especially when our kids might easily come across them. What is even more disconcerting is that because of drugs and drug paraphernalia vehicle thieves make our vehicles become unsafe scenerios. The Car Salon is routinely called for cases where a personal or commercial vehicle has been contaminated and left behind drugs, drug traces and/or remains.

Any vehicle containing an unregulated or illegal drug should always be treated with extreme care, and should never be disposed of with general waste. Since remnants from drug use are not always obvious, a reputable company such as the Car Salon should be consulted to ensure that not only is the drug paraphernalia removed and properly disposed of, but that any toxic substances are cleaned away to keep you, your loved ones, and any other occupants safe.

When a drug user has contaminated your vehicle, the drug residue and unsuccessfully discarded drug paraphernalia, such as used needles, glass pipes, and baggies, can have permanent, adverse effects on the innocent. Anything as small as the hypodermic needle used can easily penetrate someone's skin, potentially endangering the health of the victim with unknown pathogens and drug residues. Broken crack pipes can cut the skin and cause infections, or allow traces of drugs to enter the bloodstream of an individual. And even a seemingly harmless object such as a baggie can contain ample drug residue to cause serious harm to children or pets.

We also Provide Fleet Security solutions! After a traumatic experience like a break-in to your vehicle it would be understandable to try and prevent the situation all together. We provide state of the art security solutions for your vehicle. to protect and deter from any break-in or theft.

Protect your investments with Fleet Security Solutions. We do catalytic converter theft, gps tracking and even mobile notifications for fleet vehicles!
